INTERESTS

Listen to Music

PROFESSIONAL SUMMARY

Dynamic and meticulous Front-End Developer skilled in React.js, JavaScript, HTML5, and CSS3. Adept at delivering high-quality, responsive web applications and leveraging Generative AI for innovative solutions. Quick learner with excellent problem-solving and collaborative abilities, and expertise in integrating frontend with server-side APIs.

PROJECTS

1. Ticket Management App | |

React | Reqres API | Axios | React Router |
Chakra UI | Git

- Built to streamline the process of managing support tickets with React.js.
- Integrated with Reqres API for secure user authentication.
- Implemented comprehensive ticket management features like ticket creation, viewing, editing, and status tracking.
- Used Chakra UI for a responsive and visually appealing design.
- Utilized React Router for seamless navigation and Git for version control.

2. PharmaEasy Website Clone | |

React | Axios | React Router Dom | Chakra UI |
json-server

- Developed a comprehensive pharmacy website clone using React.js.
- Created key pages including Home, Login, About, and Product Detailed pages.
- Integrated various components for a cohesive and interactive user interface.
- Ensured code quality and maintainability through version control and code reviews.
- Implemented form validation on the login page and used json-server for mock backend data.

ACHIEVEMENTS

Hukumu Interview

Masai School

I have successfully earned the Hukumu Interview Certificate from Masai School, an achievement that recognizes my outstanding performance in the rigorous technical and behavioral interview process conducted by Hukumu, a distinguished partner of Masai School.
